EXPERIENCE

Software Engineer

Collins Aerospace

April 2024 - Present

Sterling, VA

- Engineered automated provisioning and configuration workflows for RHEL and Windows virtual machines using Ansible, reducing manual deployment effort and improving environment consistency across test and production systems.
- Developed CI/CD automation pipelines using GitLab CI, Docker, and Terraform to support infrastructure deployment and application integration for on-prem enterprise environments.
- Built Python and Bash automation tooling for platform integration, system validation, and deployment operations across multi-environment infrastructure.
- Supported enterprise virtualization infrastructure through VMware vCenter automation and configuration management workflows.
- Mentored junior engineers on automation best practices, CI/CD workflows, and infrastructure engineering processes within Agile development teams.

National Technology Consultant: Cybersecurity Intern

Ernst & Young

Jun 2022 - Aug 2022

McLean, VA

- Developed and maintained provisioning, password, pre-aggregation, and post-aggregation policies within an Active Directory identity management framework.
- Configured and utilized SailPoint IdentityIQ in a sand-boxed VDI environment, leveraging Eclipse IDE to develop and integrate custom identity management solutions.
- Collaborated within Agile scrum teams to update and maintain technical design documentation across across multiple concurrent development sprints.

EDUCATION

Bachelor of Science in Cyber Security Engineering, George Mason University

Magna Cum Laude, GPA: 3.74/4.0

Fairfax, VA

2019 - 2023

Software Engineer with 2+ years of experience building enterprise automation, CI/CD pipelines, and infrastructure deployment solutions in Linux and Windows environments, Experience with Python, Ansible, Terraform, Gitlab CI/CD, Docker, Kubernetes, and VMware virtualization platforms.

SKILLS

Languages

Python, C++, Bash, PowerShell, JavaScript/TypeScript, HTML

Infrastructure & DevOps

Ansible, Terraform, GitLab CI/CD, Docker, Kubernetes, VMware vSphere

Platforms

Linux (RHEL 8/9), Windows & Windows Server

Tool & Technologies

Git, REST APIs, WinRM, JFrog Artifactory

SELECTED AWARDS & HONORS

Fred Rohr Award 2026 for Outstanding Contributions to Engineering Methods

2022-23 Department of Cyber Security Engineering Distinguished Achievement Award

Rockwell-Collins Certificate: Outstanding Achievement Engineering Award at LCPS Regional Fair.

LEADERSHIP

- Supported Agile Scrum processes by onboarding new engineers, coordinating sprint and increment planning, and facilitating daily stand-ups using JIRA and Confluence.
